The International Who's Who 1979-80

The forty-third edition of the standard source of basic biographical information about the most eminent and distinguished men and women in the world today.

THE INTERNATIONAL WHO'S WHO is widely accepted as the standard authoritative source of biographical information about the most eminent and distinguished personalities in every country in the world today.

THE INTERNATIONAL WHO'S WHO contains concise biographies of the outstanding men and women of our time. The range is wide and takes in those who have achieved distinction in international affairs, government, administration, diplomacy, science, medicine, law, finance, business, education, religion, literature, music, art, sport and entertainment.
All the essential facts are there—date of birth, nationality, education, career, present positions, honours, awards, current address.

Each new edition of THE INTERNATIONAL WHO'S WHO is the result of a year-long task of research by the Europa editorial staff. This year over four hundred new names have been included. Existing biographies have been brought up to date and revised to include the latest available information.

The forty-third edition has been completely re-set in a clear and compact style and the format is slightly larger than previous editions.

FOREWORD TO THE 43rd EDITION

Each new edition of THE INTERNATIONAL WHO'S WHO is the result of a thorough revision of its predecessor. Daily records of changes to existing entries are maintained and the editors are constantly engaged in research directed towards the selection of new names. The book contains biographies of people from almost every country in the world and in almost every sphere of human activity.

Computer-aided photo-typesetting has been used in the production of this edition, which is now in a new and larger format. Over four hundred new biographies have been added and many of the existing entries have been expanded. An obituary list of persons whose deaths have been noted since the preparation of the previous edition appears at the front of the book, immediately after the section on Reigning Royal Families.

We would once again like to express our thanks to all those who, by completing questionnaires or by correcting proofs sent to them, have enabled us to bring our information up-to-date. We would particularly like to emphasize the necessity for proofs of entries to be returned to us without delay, since only in this way can we be certain that every entry is as accurate and as up-to-date as possible.

June 1979.
